# The Evolution of Meeting Rooms
End-user collaboration is changing…are you?

## How we work and meet is changing at a rapid pace…

Infrastructure

Moving from hardware to software-based communications has helped us to reduce costs and extend reach to more users.
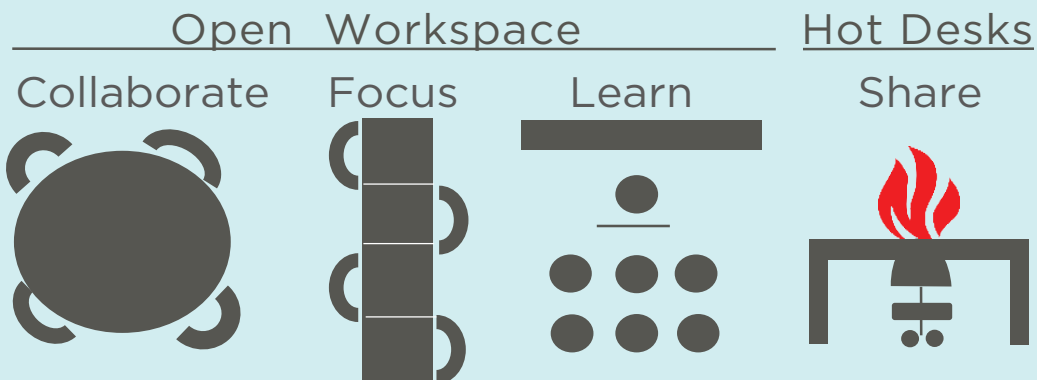

Anywhere Offices

Initiated audio or web conference from a mobile device?

Smartphones
45%

Tablets
27%

Advances in personal devices now allow us to connect to meetings no matter where we are.

Workplace Designs

These changes have enabled the flexible workplace.

Open Workspace

This is changing how IT looks at conference rooms…

IT Professionals' Conference Room Plans
Next 12-24 months

Greater focus on smaller meeting spaces…

…and equipment that supports flexibility.

- Small Conference Rooms (<4 ppl.)
- Large Conference Rooms (>10 ppl.)

	Growth	Webcam Deployments	PC Deployments
Small Conference Rooms	47%	75%	71%
Large Conference Rooms	15%	25%	58%

How is this all playing out? For tips on how IT professionals can stay ahead of these shifts check out our whitepaper at info.Logitech/ConferencingWhitepaper.html
