FEATURE SPOTLIGHT

Optimized for Microsoft® Lync™; Cisco® compatible²; Skype™ certified; Compatible with most leading UC platforms

Ensures enterprise-quality audio and an integrated experience with most all business-grade UC platforms.

Padded, metal-reinforced headband

Durable and adjustable padded headband can be worn comfortably all day while metal reinforcement provides strength, flexibility and “just the right” fit.

Replaceable leatherette ear pads

Built with high quality materials so the headset remains comfortable during long hours of use. Plus, the leatherette ear pads can be easily cleaned and are conveniently replaceable.

Inline controls

Convenient access to all call controls: volume up/down, microphone mute and call answer/end³.

Incoming call indicator

LED flashes with incoming calls⁴, providing a convenient visual cue to answer the phone.

Digital Signal Processing (DSP)

Enables precise tuning for both the mic and speaker so conversations are more life-like.

**Acoustic echo cancellation**

Blocks unwanted noise coming from the speaker from entering the mic path.

**Noise-cancelling microphone**

Blocks out distracting ambient noise from the surrounding environment.

**Dynamic equalizer**

Automatically switches between voice and music modes, delivering the best sound quality for what the user is listening to.

**Wideband audio**

Hear and be heard in true wideband audio, ensuring those on both sides of the call enjoy a lifelike listening experience.

**Logitech Sound Protection**

Designed for protection against sounds above 115dBA to deliver exceptional listening comfort for voice and music; compliant with EN60950-1.

**Flexible microphone boom**

The boom rotates up and down and can be bent in or out to enable optimal placement for voice pickup.

**Stylish, lightweight design**

Durable, lightweight materials provide a contemporary, stylish look.

**Plug-and-play USB connectivity**

Easily connects to a PC or Mac with no additional software required.
