

Group Video Conferencing for the

ANYWHERE WORKPLACE

CHOOSING THE RIGHT SOLUTION

Quality, Simplicity, and Affordability

Whether you prefer to use your own PC or a dedicated PC for video meetings, Logitech ConferenceCams provide the flexibility you need to get your meeting started.

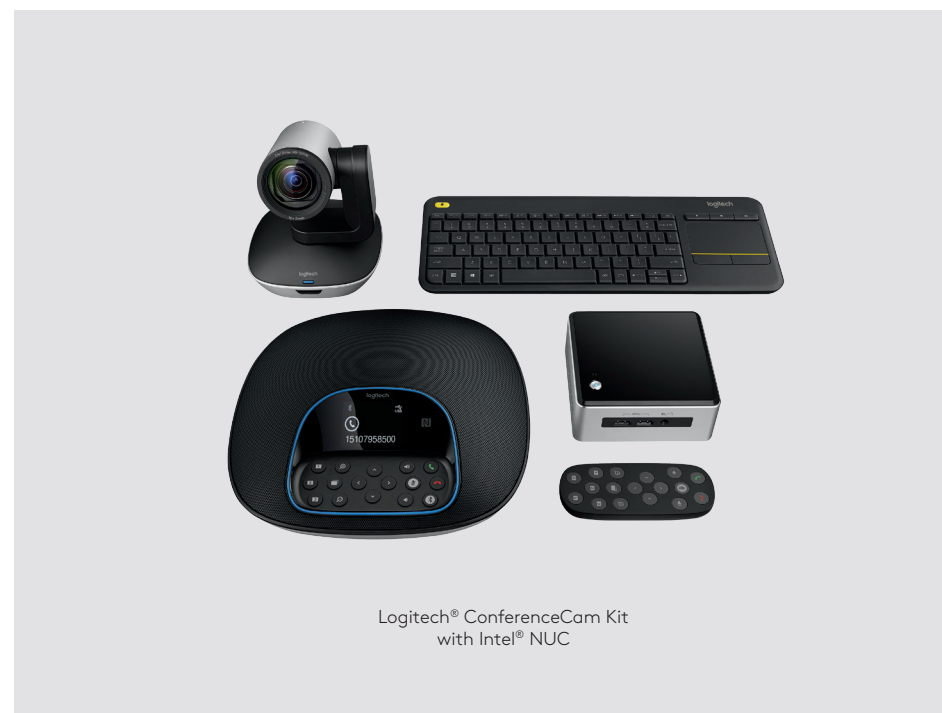

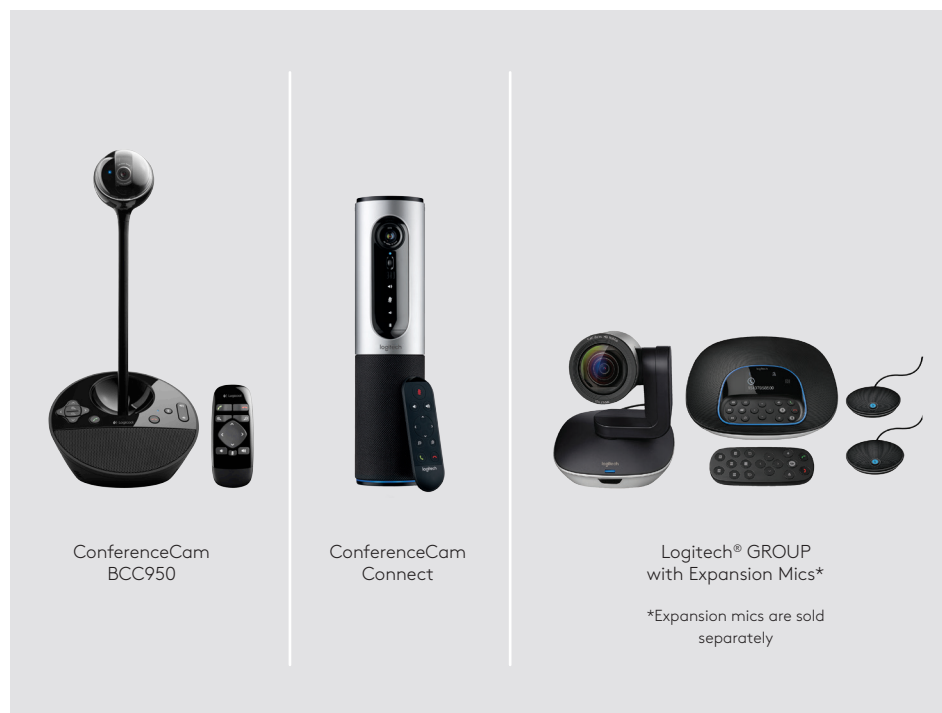

Designed for small to large-size groups, Logitech ConferenceCams are changing the way teams collaborate,

opening new possibilities and eliminating old boundaries. With high-quality HD video and crystal clear audio at an amazingly affordable price now any room can be a video-enabled collaboration space. They even work with any video conferencing software application — including the ones you already use.

Plus, with plug-and-play simplicity, full duplex omnidirectional speakerphones, and a wide field of view — now everyone in the room can be easily seen and heard.

CHOOSING THE RIGHT SOLUTION

Whether you use your personal computer or a dedicated computer for video conferencing, Logitech has a ConferenceCam solution that's right for you.

BRING YOUR OWN LAPTOP

By using your own personal computer, you have everything you need on hand to share with your video collaborators. Just plug and play.

- Quick and easy access to your content and the applications you use most
- Flexibility to choose any video conferencing software, even the ones you already use.
- Same familiar user interface you have at your desk
- Plug-and-play convenience

DEDICATED PC IN THE ROOM

It's all set up and always ready. Simply, host your video conference on a dedicated computer in a meeting room and share your screen wirelessly.

- Same ready-to-go experience each time
- Predictable bandwidth, power, CPU and connectivity
- Each meeting room can have a customized identity
