The Logitech Family..... 9

# 1 IT'S THE ULTIMATE DOCK FOR REMOTE WORKERS

**Everything you need, in one convenient solution.** Logi Dock, the all-in-one docking station, declutters personal workspaces, streamlines virtual meetings, and keeps things simple for hybrid workers. Stay on task, clear up space, and zoom right along. Who said one is the loneliest number?

THE WORK  
FROM HOME  
SUPERHERO.

A photograph of a desk setup. On the left, a portion of a monitor is visible, showing a video call window with a person's hair. Below the monitor is a dark grey Logi Dock. In the foreground, a mouse is on a mousepad. A pink desk lamp is on the right. The background is a blurred office space with a plant.

## 2 IT SIMPLIFIES PERSONAL WORKSPACES

**Meet the central hub of your desk.** Logi Dock reduces visual clutter to make zoom — er, room for cleaner, more organized personal workspaces. With a single connection point for up to five USB peripherals and two monitors, Logi Dock gives your laptop 100 watts of reliable power. No tangled wires required.

LESS CORDS.  
FEWER  
PERIPHERALS.  
MORE SPACE  
FOR YOU.

# 3 IT'S PURPOSE-BUILT FOR ZOOM MEETINGS

**There's always zoom at the top.** Logi Dock lets you hop on to any Zoom meeting instantly with its simple one-touch-to-join feature. With calendar integration\* and support for Zoom™, Logi Dock makes joining your next meeting easy and breezy. Built in mute indicators will remind you that you're on mute so your colleagues won't have to.

\*Logi Tune desktop app required for calendar integration, which supports Office 365 and Google Calendar.

PRESS A  
BUTTON.  
ZOOM!  
YOU'RE IN.

# 4 IT HAS AN AMAZING SPEAKERPHONE

**We've got you on speaker.** Logi Dock's built-in, noise-canceling speakerphone gives you high-quality sound for your most important calls. Six beamforming microphones capture your voice as unwanted background noise is suppressed by advanced algorithms. Thanks, Logi Dock.

Want some privacy? Switch the audio from Logi Dock's speakerphone to your personal audio by turning on your Zone Wireless (Plus) headset or inserting your Zone True Wireless earbuds.

SOUND  
IT OUT.

# 5

## IT HAS IMMERSIVE STEREO SOUND

**It's music to your ears.** Logi Dock's finely-tuned speakers give you immersive, realistic sound. You'll feel like whoever you're speaking to just stepped inside your home office. Need a dance break? With the Logi Dock, you can enjoy your favorite tunes between meetings. Pair it with your smartphone or tablet via *Bluetooth*® to stream any songs or audio you want. Just make sure it has a good beat.

YOU HEARD  
IT HERE FIRST.

# 6

## IT FEATURES VISUAL ALERTS

**Talk about a bright idea.** Like a ray of light shining at the end of a tunnel you're zooming through, Logi Dock's ambient light indicators get your attention when you receive video calls. You won't miss a sync — even if you have your headphones on. This alert feature also reminds you of upcoming meetings and indicates your call and mute status. Let's flash forward.

ENJOY  
THE LIGHT  
SHOW.

# 7 IT'S ALREADY PART OF YOUR LOGITECH PRODUCT ECOSYSTEM

**One big happy family.** Logitech's collaboration products are designed and built to belong with each other. Create a wireless workspace with Logi Dock by directly pairing Zone wireless products. Connect a Logitech wireless keyboard and mouse with a Unifying receiver. You'll free up USB ports for other devices like your webcam. Now, it's time for us to zoom out.

BETTER  
TOGETHER,  
NOW &  
FOREVER.
